

November 5, 2009

Dear Customer:

Key raw materials used in the production of ABS resins continue to rise. As communicated in previous Spartech price increase letter announcements dated 4/27/09, 6/2/09, and 7/08/09, the ABS resin market remains in an inflationary environment.

Effective November 16, 2009 for all shipments on or after this date, Spartech Plastics will implement a price increase for all ABS products by \$0.09 per pound.

This price increase is in addition to all previously implemented ABS increases. Please revise your purchase orders to reflect the change in pricing.

Your Spartech Account Manager is available to answer any questions you may have and discuss further details concerning these increases.

Thank you for your interest in Spartech products. Spartech appreciates and values the business you place with us.

Sincerely,

Gary Orenstein
Sales Manager – Central Region
