Dear Customer:

Due to the ongoing escalation of raw material pricing, we are increasing the prices of our polyethylene sheet and rollstock products as follows:

Effective with shipments on or after July 15, 2008, Spartech Plastics will increase the selling price of all polyethylene sheet and rollstock products by \$0.07 per pound. This is in addition to the \$0.05 per pound increase effective to the market on July 1, 2008, as well as the \$0.06 per pound non-polymer increase effective July 15th.

We have also been notified of an additional \$0.08 per pound increase which we are tentatively scheduling for an August 1, 2008 implementation, but those details are not yet finalized.

Your Spartech sales representative is available to answer any questions and discuss further details about this price increase. We will keep you informed of any changes in the increase amount or timing as we continue to negotiate with our suppliers. We remain extremely active in our efforts to manage and control these costs and their impact to our customers. We appreciate your understanding and thank you for your support.

Sincerely,

Tom Gavinski
Sales Manager – East Region
