RE: Polypropylene Resin Price Increase

Dear Polypropylene Customer,

Due to higher than previously-announced polypropylene costs for July, Spartech Color & Specialty Compounds is revising the \$0.08/lb price increase, originally announced June 20, 2008 to \$0.15/lb. The revised price increase remains effective with shipments on and after July 1, 2008. This increase is being driven by rising raw materials costs for polypropylene and strong propylene monomer demand. Additionally, Spartech will be increasing the selling price of all carbon black concentrate, titanium dioxide concentrate, additive and color concentrates driven by the rising costs of these raw materials.

Product Type	Polypropylene
50% White Masterbatch	\$0.090/lb
70% White Masterbatch	\$0.066/lb
Black Masterbatch	\$0.115/lb
Additives / Naturals	\$0.160/lb
Color Concentrates	\$0.160/lb
Compounded Products*	\$0.150/lb

Your Spartech Color & Specialty Compounds account manager will be in contact with you to discuss this increase and address any questions you may have.

We appreciate your continued business.

Sincerely,

Chad Tomsheck
Director of Specialty Compounds & Tolling
Spartech Color & Specialty Compounds

* Pricing will be adjusted per the resin content in the compounded product.
