

February 3, 2009

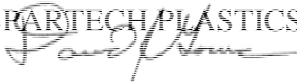

Dear Customer,

Effective with shipments on February 15, 2009 Spartech is raising the price on all polystyrene products by \$0.05 per pound.

After declining rapidly over the last few months, both benzene and ethylene prices have increased in recent weeks, causing upward pressure on polystyrene prices.

Your Spartech account manager will be in contact with you to answer any questions. Thank you for your support as we begin another year that we all hope will not be as tumultuous as the last one. We sincerely appreciate your business.

Sincerely,

SPARTECH PLASTICS  

David J. Gorenc  
Vice President
