

July 19, 2009

Dear Customer,

Effective with shipments on August 1, 2009 Spartech is raising the price on all polystyrene products by \$0.06 per pound. This increase, as well as the other recent polystyrene price increases, is largely driven by the prices of benzene, which is the largest constituent of polystyrene polymer, and, to a lesser extent, butadiene.

This price increase is in addition to the \$0.05 per pound increase announced for July 1, 2009.

Your Spartech account manager will be in contact with you to answer any questions you may have. Thank you for your business, especially in this tough economic climate. We appreciate your loyalty and support.

Sincerely,

David J. Gorenc

Vice President
