May 14, 2008

Dear Spartech Customer:

Effective June 1, 2008, Spartech FCD, LLC will implement a \$0.04 per pound increase for all shipments on or after that date. The increase is necessitated by the ongoing escalation of raw material pricing being incurred by Spartech. This price increase is in addition to the previously announced increase of April 15, 2008, that remains in effect.

We are sensitive to the many challenges faced by our industry due to higher raw material costs and the implications price increases have on our businesses. We remain committed to control our internal costs wherever possible and will continue to provide high quality products and services.

Thank you for your business and for your continuing support in this very difficult business environment.

Sincerely,

David N. Hilton

Business Manager
