RE: PVC Price Increase

Dear Customer:

Effective for all shipments made on or after June 1, 2009 Spartech Calendered & Converted Products will implement a \$0.04/lb increase on all PVC Products. This increase is directly related to the recent PVC resin increase implemented by our raw material supplier.

We are sensitive to the many challenges faced by our industry due to these tough economic conditions and the implications price increases have on our businesses. We remain committed to control our internal costs wherever possible and will continue to provide high quality products and services.

Thank you for your business and for your continuing support in this very difficult business environment.

Sincerely,

Joe Herres
National Sales & Marketing Manager
