

What is the PolyPrime™ Product Line?

Spartech's PolyPrime™ line of products are extruded polyethylene and polypropylene sheets and converted poly products. Our high density printable polyethylene and polypropylene sheet is extremely durable and easy to convert for a variety of product applications such as signs, POP displays, and OEM applications.

Polyethylene & Polypropylene Sheet Characteristics:

- PE and PP plastic is extremely durable
- PE and PP plastic can be produced in a variety of surface finishes and thicknesses
- PE and PP plastic can be produced in a variety of opaque colors (PE), tints and clears (PP). Specific PMS matches can be requested
- Numerous decorating techniques, including four-color process, can be screen, digital or offset printed with nearly picture-perfect reproduction
- When finishing, our PE and PP are very versatile and can be used in many converting operations like, die-cutting, folding, taping, riveting, embossing and foil stamping.
- Completely Recyclable

Capabilities:

- Two Manufacturing Facilities
- 15 Extrusion Lines
- State-of-the-Art Technology
- Graphic Quality Sheet
Available in Flat Sheet Stock or Roll Stock
- Offer numerous sizes, finishes, thicknesses and colors
- Gauge Range:
PE - 0.010 to .125 gauge
PP - 0.012 to .125 gauge
(gauge range may change depending on finish)
